

**NAME:** Renee Unterman  
**PARTY:** Republican  
**SEEKING:** Congress, 7<sup>th</sup> District

**1. Why are you seeking your office?**

More than ever, Gwinnett and Forsyth counties need a conservative fighter that will protect families, grow the economy, defend the 2nd Amendment and stand with President Trump as he makes America GREAT again. I've proven I can do more than talk about our conservative values – I've delivered real results on the kitchen table issues that matter most. As a lifelong member of our community, I know my neighbors, and I have a proven record of fighting and winning for them.

**2. What do you expect to accomplish if elected?**

My top priority will be working with President Trump to put America and American families first. That includes finishing the Wall as quickly as possible and putting American businesses and their employees first in international trade agreements. I will fight to cut taxes for hardworking Americans, and I'll stop Nancy Pelosi from implementing her radical agenda. I will fight to protect our 2nd Amendment rights, and I'll always put the people of Forsyth and Gwinnett counties first.

**3. What distinguishes your candidacy?**

I am the only candidate in the race for the 7th Congressional District with a proven conservative record. I believe in listening to the people and then taking decisive action. I delivered the largest income tax cut in Georgia history, authored the nation's strongest pro-life legislation, and started the movement to end human trafficking. I've never backed down from gun-grbing liberals, and my record shows I will never stop fighting for our conservative values.

**4. Pick any one issue. Expand on how you will address it.**

It's time for America to end our dependence on goods manufactured overseas, especially from Communist China. The COVID-19 pandemic proved that President Trump was right in working to end our reliance on Chinese goods, especially medical supplies. In Congress, I will introduce conservative legislation to encourage consumers and businesses to purchase American products and materials. It's critical that we take back control of our economic destiny. I'll lead the fight alongside President Trump to reinforce the demand for Made in the USA products to bring even more manufacturing back home.

**5. Suggest ways to jump-start the economy after COVID-19.**

As our nation rebounds from COVID-19, we need fiscally conservative policies to promote recovery, including a tax cut for middle-class families. I'm ready to work with President Trump to eliminate burdensome big-government regulations, encourage public-private partnerships at the local level, and end American reliance on goods made in Communist China. These policies led Georgia to be the No. 1 state for business as we emerged from the last Recession, and Congress should follow this example as we restart America's booming economy.

**6. Please give a 100 word summary on your background.**

As a former mayor, county commissioner, and state senator, I have always stood up for conservative values and worked to strengthen families, protect the most vulnerable citizens, and bolster the local economy. I've delivered on the kitchen table issues before, and you can count on me to continue leading the way in Washington. I will always put America and the people of our communities first, just as I always have, and I will always stand up for our conservative values.
